PATHWAY

Stage 1 – Swim Confidence

Level 2 · Starfish · Water Explorer

Decision: Consolidate current level

You have worked really hard during the Spring Term 2026 and we are very proud of the effort you have shown. You are making steady progress in the water and growing in confidence with each session.

This term we celebrated

- Continuing to develop skills at Swimming Level 2
- Building confidence within Swim Confidence
- Building comfort and calm during swimming sessions
- Positive engagement and responsiveness in lessons

About the clubSENSational Swimming Journey

Our swimming programme grows through three stages and six adaptive levels. Progress is individual.

Looking ahead / Next term

Next term we will continue building confidence, strengthening key aquatic skills, and celebrating every step forward.

Reviewed by: Jordan Lee

Three stages. Six levels. One celebrated pathway.

Your term certificate celebrates stage, level, and growth in the water. This map shows what those words mean: where your swimmer is now, and how every step forward is recognised.

PURPOSE

We support swimmers beyond skill completion, focusing on how they experience, respond, and function in water. Development is guided with care, not only skill delivery.

Functional independence

Skills as tools

Emotional and physical readiness

VALUES

Every decision keeps learning safe, inclusive, and meaningful, with progress that belongs to each swimmer.

Individual pathway

Safety before progression

Confidence through positive experience

STAGE 1

DISCOVER

Swim Confidence

Emotional readiness and sensory experience before technique: safety, comfort, and trust in the water.

LEVEL 1 ? FIRST
SPLASH

Turtle

Calm first contact and trust

LEVEL 2 ? WATER
EXPLORER

Starfish

Longer engagement, lighter prompting

STAGE 2

EXPLORE

Swim Basic

Fundamental skills for safe, confident movement: floating, balance, propulsion, and safety sequences.

LEVEL 3 ? FLOATING
FRIEND

Jellyfish

Float, streamline, early propulsion

LEVEL 4 ? OCEAN
NAVIGATOR

Ray

Control, coordination, independence

STAGE 3

MASTER

Swim Structured

Stroke refinement, rhythm, and endurance: structured swimming with integrated water safety.

LEVEL 5 ?
INDEPENDENT
SWIMMER

Dolphin

Technique and sustained independence

LEVEL 6 ? OCEAN
MASTER

Whale

Efficiency, fluency, endurance

CORE DEVELOPMENT AREAS

On your certificate, Development this term celebrates these three areas alongside stage and level, not only swimming skills.

Regulation

How calm, safe, and emotionally available the swimmer feels in the water.

Independence

How much support is needed for position, movement, and safety.

Learning and Engagement

How the swimmer participates, attends, and responds to teaching.

HOW WE CELEBRATE PROGRESS

Each term certificate names the stage, level, and animal pathway, and highlights growth in regulation, independence, and engagement. Progress is individual. Returning to earlier foundations is still progress.
